PROJECT FOUR
CONSTRUCTION SAFETY

WELCOME TO PROJECT FOUR

MORE THAN BOX TICKERS

We're a construction safety company that does more than just tick boxes. With Project Four, you'll get the very best strategic and technical advice - but from people you can have a proper chat with. Our team will make it easy and dare we say it, even enjoyable, for you to comply with CDM 2015. And all without a clipboard in sight.

WHAT WE DO

WE HELP CLIENTS & DESIGNERS COMPLY WITH CDM 2015

The CDM regulations (known as CDM 2015) apply to all construction projects in the UK. If you are the Client (the person for whom a construction project is being carried out), the Principal Designer (the person with overall control of the pre-construction phase - usually the lead architect) or the Principal Contractor (the person in overall control of the construction phase), you have specific legal responsibilities. The good news is, we're here to help you meet your duties with simple, clear and practical guidance that can be implemented quickly.

ENGAGEMENT. EDUCATION. EXECUTION.

At Project Four, we have developed a philosophy that helps us deliver CDM training in a way that truly connects.

We have three pillars to our philosophy. The first is 'Engagement': It goes without saying that without duty holders fully engaging with our team and the subject matter, it's difficult to move forwards.

That's why our training programmes are designed in bite sized, punchy modules that make CDM simple and, dare we say it, even interesting.

Education: Good education relies on great teachers. You'll find our team is friendly, funny, and likeable. Real people that talk your language.

Execution: We're not about the 'theory' - we're all about the practical execution. We'll explain exactly what CDM compliance looks like, in real life, for you - and tell you exactly what you need to do and when to meet your duties.

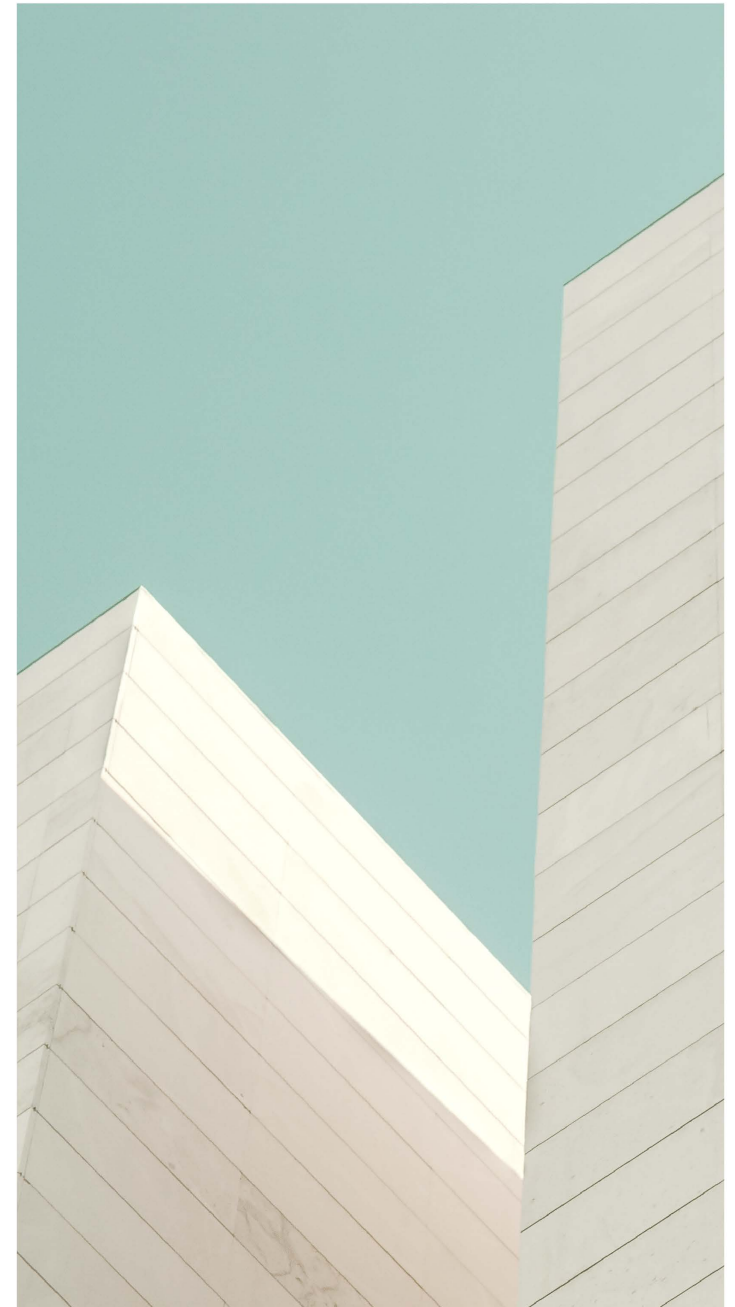

WHO WE WORK WITH

We offer CDM training and strategic guidance to Clients, Principal Designers and Principal Contractors. Here's a rundown of the services we offer.

SERVICES

- # **Principal Designer Advisors**
- # **Principal Contractor Support**
- # **CDM Client Advisors**
- # **CDM Training**
- # **Retained Strategic Support**
- # **Building Safety Bill Training**
- # **Project by Project Support**

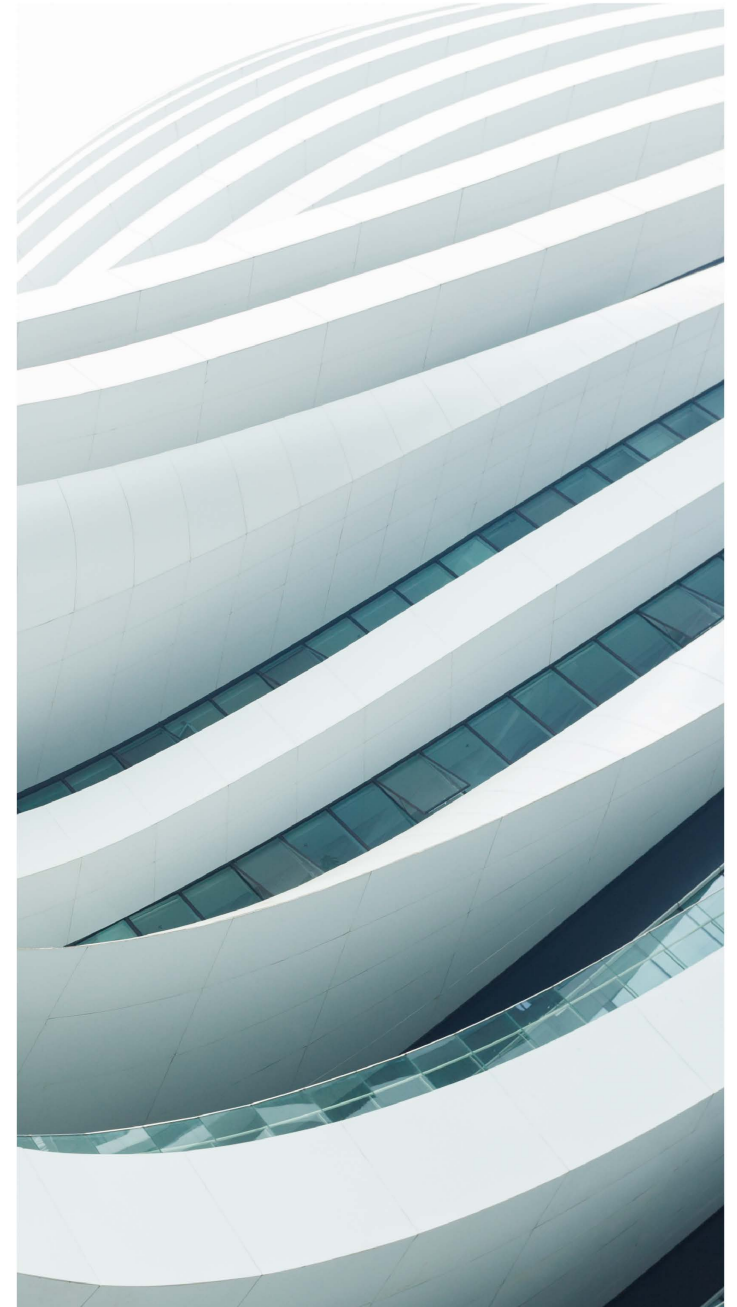

PRINCIPAL DESIGNER ADVISORS

We work closely with architects, designers and contractors to ensure that they have the skills, knowledge and capability to meet the requirements. We really do fully understand the Principal Designer function in detail. In short, we'll help you nail it.

CDM CLIENT ADVISORS

The overarching message for CDM 2015 is '**greater client accountability**'. Our team will help you tackle the challenges of CDM in the most efficient and effective way possible. So you fully understand every requirement and how to meet it without breaking a sweat.

SERVICES

PRINCIPAL CONTRACTOR SUPPORT

Our team of CDM specialists provide straight-forward, plain speaking, practical steps to make sure Principal Contractors get up to speed in no time.

CDM TRAINING

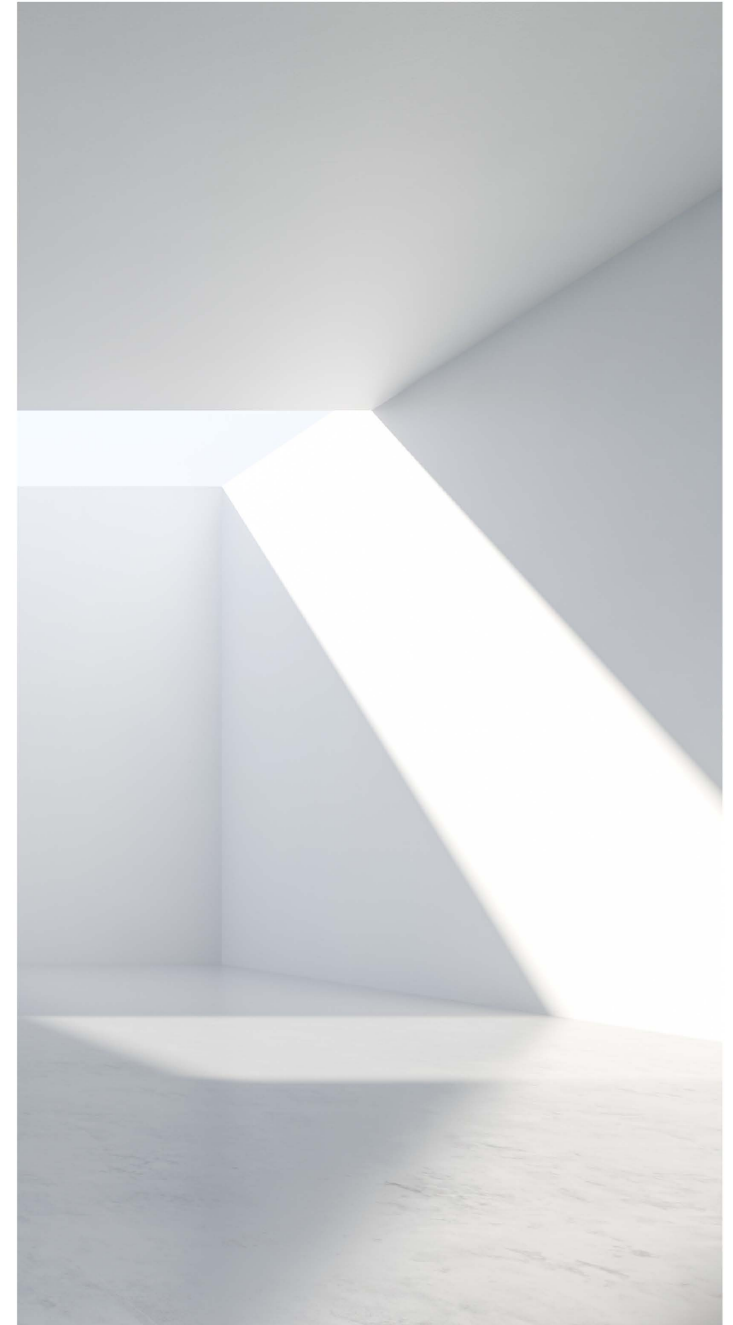

We get it. CDM is dull. Whereas our competitors will subject you to death by PowerPoint, we've made it our mission to improve CDM across the construction industry by making it more appealing through short, punchy sessions. We break the regulations down into simple bite sizes, and show you exactly what compliance looks like in real life - for you.

RETAINED STRATEGIC SUPPORT

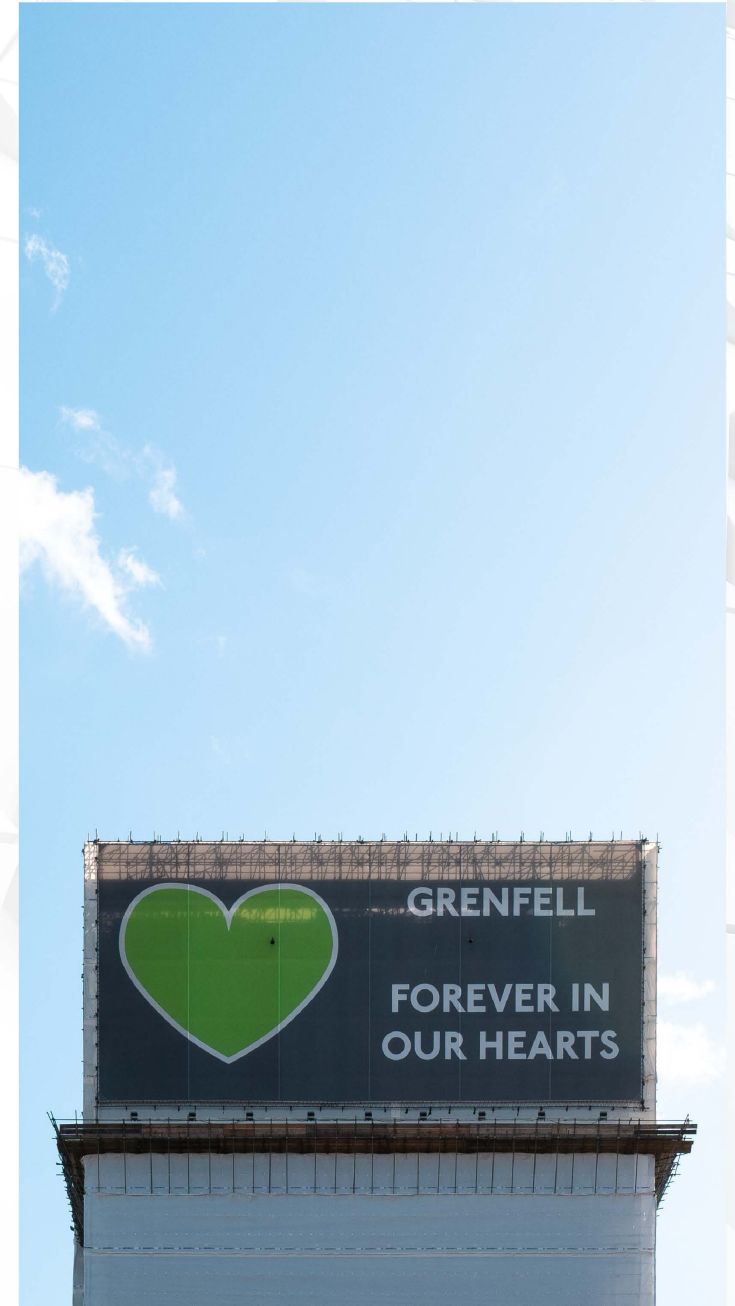

Breaking away from the industry norm, we provide our retained clients with a toolkit so they can meet their CDM obligations. Not only does this make you self-sufficient but it completely eliminates the project by project fees.

(The perfect solution for those clients who like to know exactly where they are with costs each month.)

BUILDING SAFETY BILL

Turns out, cladding a building in flammable material to make it more attractive isn't OK. The Building Safety Bill is the overdue response to Grenfell. If you're involved in any way with the safety of a building, you need to know and meet the requirements. This isn't optional - it will literally save lives (and keep you out of jail).

SERVICES

PROJECT BY PROJECT SUPPORT

If a retainer isn't for you, we're also delighted to work on a project by project basis. Invite us early in the process so we can identify where the gaps are and then help you deal with them.

NOT JUST CLIENT FOCUSED TEAM FOCUSED

We work closely as a team and we're passionate about what we do. Part of our success is because we make Project Four a happy place to be. Everybody's opinion counts and we meet regularly as a team to enjoy lunches and social activities.

Our get-togethers vary from karaoke in the local pub to climbing mountains. This gives Project Four a positive vibe that comes across in everything we do.

TESTIMONIAL

**‘Very Personable and Communicative,
Yet Extremely Competent and Professional.’**

“Project Four have been instrumental in our address of evolving Principal Designer duties; mentoring our understanding of such (in plain English!) and nurturing our skill-set to ensure holistic and compliant progress. The Project Four team have proven themselves to be a very personable and communicative, yet extremely competent and professional, addition to our team and we would have no hesitation in recommending their retained support services to any organisation.”
